Notice to Proceed:
April 16, 2019

Fixed Completion Date:
October 04, 2019

U.S. Department of Transportation
Federal Highway Administration

"Pebble Beach" repair site

Construction Activities & Upcoming Work

Work will start back up again this coming week. Expect to see the variable message boards going back up Monday morning. They will be placed at all four of their usual locations, Challis, Clayton, Sunbeam, and Stanley. Work at the project site will start up after the message boards have all been placed.

There will be concrete barriers placed along centerline of the roadway while the repair work is being completed. This will restrict the roadway to one lane of alternating traffic that is being controlled either by the flaggers during the work day and signals running after hours and weekends.

Expect delays of up to 15 minutes during the day when being flagged and up to 5 mins at night and weekends with the signals running.

Please be very cautious, reduce your speed, and obey the flaggers and signals when traveling through the work zone at Pebble Beach, as it will be very narrow. Thank You.
