Bend, Oregon 97701

Notice to Proceed:
April 16, 2019

Fixed Completion Date:
October 04, 2019

U.S. Department of Transportation
Federal Highway Administration

Construction Activities & Upcoming Work

The Ketchum-Challis Highway Project has begun with the installation of Temporary Traffic Control to include portable message boards, signage, and traffic signals. The project has endured the recent earthquake and numerous aftershocks (over 500 to date) without any noticeable damage or issues.

Mobilization of equipment, materials and installation of Temporary Traffic Control items will continue. Slope work will begin midweek on the upriver (west) end of the project in Section 5. The work will include removing posts to replace damaged foundations and the removal and installation of the mesh systems. Traffic delays and lane restriction have begun and will continue till completion of the project this summer.

Rock Supremacy has opted to not use road closures this season, but expect minor delays of up to 15 minutes during daylight hours Monday through Friday. Delays will be limited to no more than 5 minutes during non-working hours and weekends with Temporary Traffic Signals controlling traffic.

Please be very cautious, reduce your speed, and obey the flaggers and signals when traveling through the work zone, as it will be very narrow. Thank You.
