Federal Lands Access Program (FLAP)

Improving access to and within federal and tribal lands

Arizona

MAP-21 Funding Authorized:

FY 2013: \$13,523,234

FY 2014: \$13,624,821

FY 2015: \$13,351,665

Federal land acreage for the five core FLMAs: 39%

Federal public road miles: 4,252.83

Number of Federal public bridges: 77

Recreational visitation: 30,634,021 visitors per year

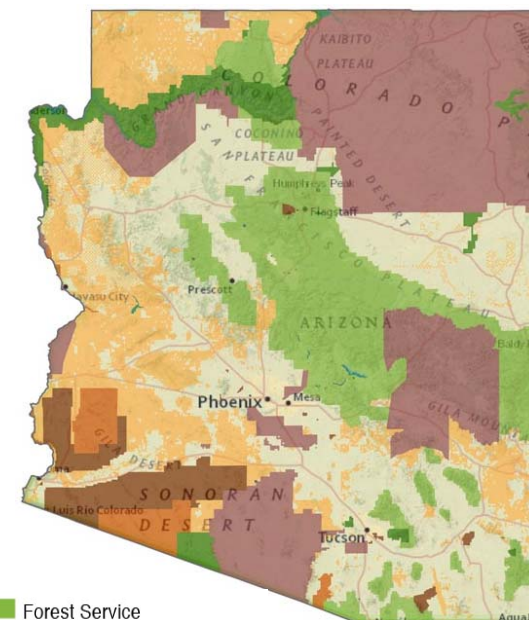

Highlighted Project: AZ FLAP 64(3), 199(1), 288(3)
Control, Houston Mesa, Reynolds Creek

Constructed: FY 2014 & 2015

Success Story:

This project was previously scoped under the Forest Highway (FH) Program for the replacement of a vented low water crossing and road realignment for Control Road, replacement of two bridges on Houston Mesa Road, and a concrete box culvert at Reynolds Creek. Due to the federal lands accessed along these routes this project was a great candidate to be considered as a legacy project for this program. The Arizona Department of Transportation and Gila County each stepped in to provide the required match the FLAP funds to move this project into this program.

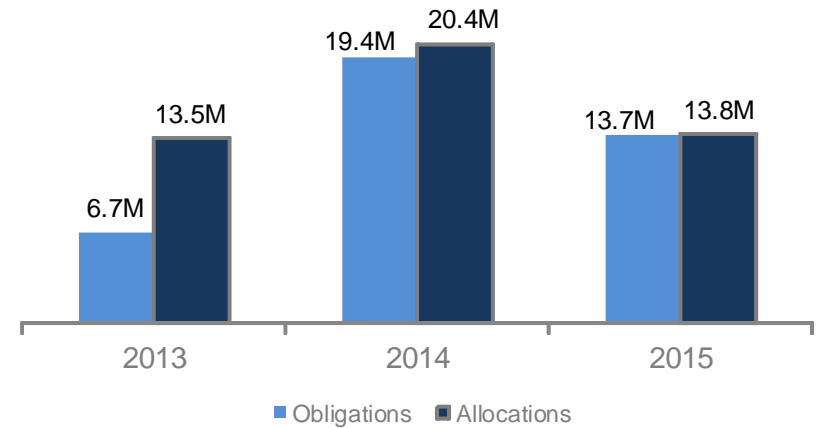

Work included safety and operational improvements at these sites. The project was completed successfully in 2015.
