Federal Lands Access Program (FLAP)

Improving access to and within federal and tribal lands

California

MAP-21 Funding Authorized:

FY 2013: \$35,717,269

FY 2014: \$35,985,578

FY 2015: \$35,264,122

Federal land acreage for the five core FLMA's: 43%

Federal public road miles: 11,290.7

Number of Federal public bridges: 481

Recreational visitation: 75,933,955 visitors per year

Highlighted Project: *Convict Lake Road*

Constructed: FY 2015

Success Story:

Convict Lake Road is located in Mono County, CA on the east side of the Sierra Nevada Mountains. The roadway provides important access to the Convict Lake day use area for hiking and fishing as well as the John Muir Wilderness, both part of the Inyo National Forest.

This project was a partnership between Mono County, the Inyo National Forest, and CFLHD to rehabilitate and widen 2.75 miles of Convict Lake Road near the town of Mammoth Lakes. Work also included drainage, safety, and erosion improvements as well as improvements to the existing bridge at the Convict Lake outlet. The widening of the roadway allows for safer use and access for bicycles and pedestrians.

CFLHD also partnered with the Inyo National Forest (INF) to provide additional funding for work along this route that was not eligible under the FLAP program but were important and much needed improvements to infrastructure owned and maintained by the INF.
