Federal Lands Access Program (FLAP)

Improving access to and within federal and tribal lands

Nevada

MAP-21 Funding Authorized:

FY 2013: \$7,085,158

FY 2014: \$7,138,382

FY 2015: \$6,995,269

Federal land acreage for the five core FLMAs: 80%

Federal public road miles: 2,265

Number of Federal public bridges: 28

Recreational visitation: 13,523,024 visitors per year

Highlighted Project: *Corn Creek Road*

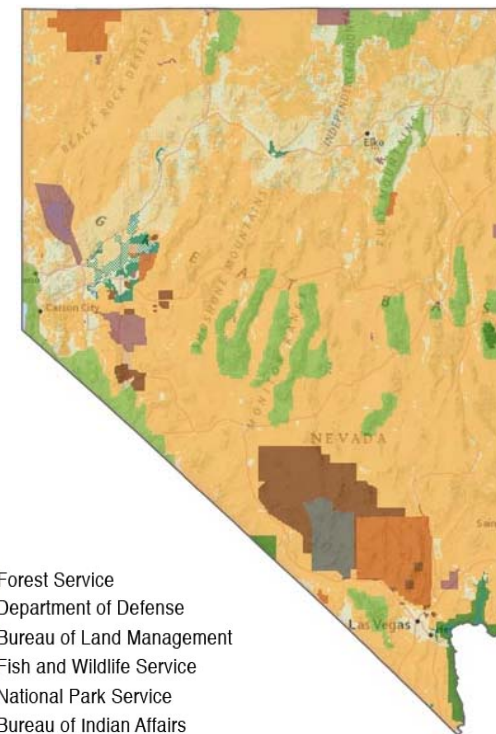

Constructed: FY 2015

Success Story:

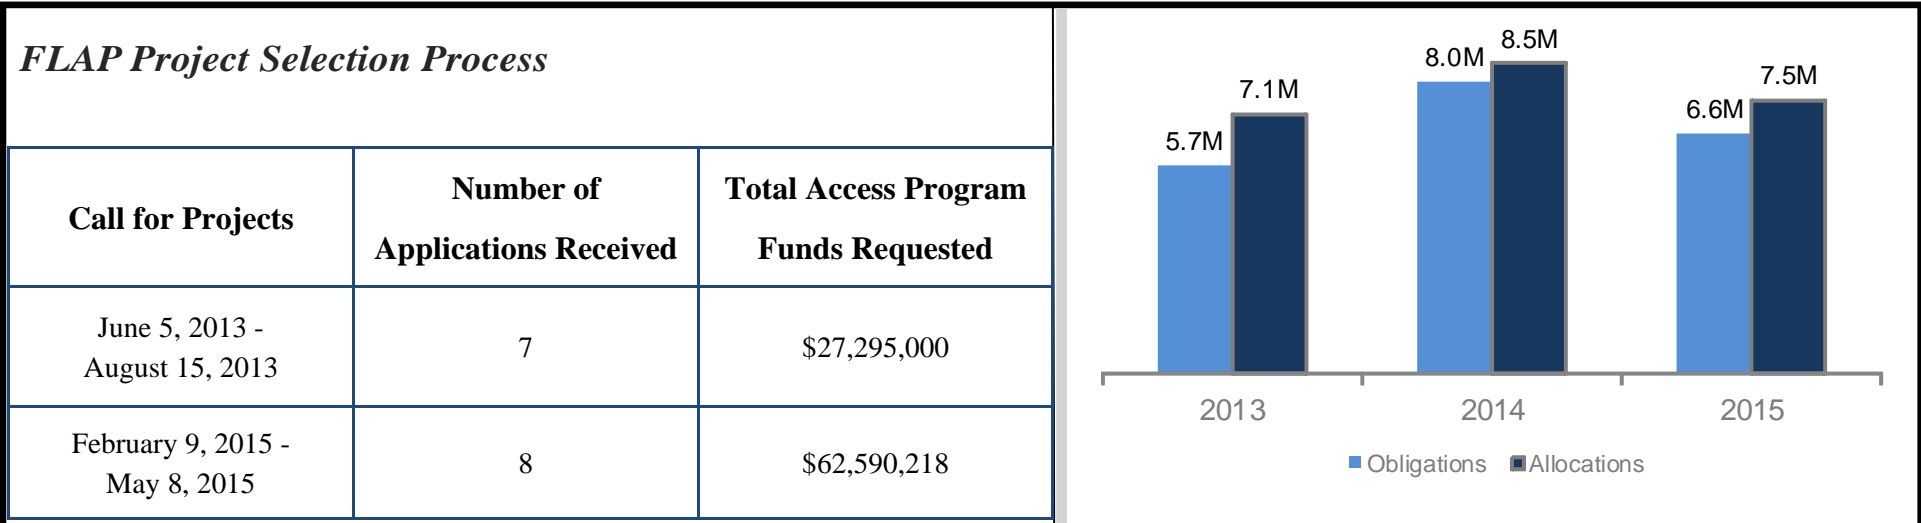

Corn Creek Road is a two-lane gravel minor collector roadway that provides access to USFWS Desert National Wildlife Refuge and BLM lands in the Las Vegas Valley. The road was a gravel road, requiring frequent maintenance due to wind and rain erosion and a lack of sufficient drainage features. Frequent maintenance resulted in the reduction of surface aggregate thickness and higher material costs to replace the aggregate. The road was also periodically closed due to an adjacent intermittent stream that floods during rain events.

The FLAP program provided funds for the construction of a box culvert, and a paved surface from Nevada State Highway 95 to the Refuge Boundary, improving safety, air quality, and reducing maintenance.

Clark County and the USFWS partnered on the required matching funds for this work. Successful collaboration between CFLHD, Desert NWR, BLM, and Clark County allowed for an accelerated project development.
