## Federal Lands Access Program (FLAP)

Improving access to and within federal and tribal lands

# North Dakota

MAP-21 Funding Authorized:

FY 2013: \$862,420

FY 2014: \$868,899

FY 2015: \$851,479

Federal land acreage for the five core FLMA's: 7.91%

Federal public road miles: 852.9

Number of Federal public bridges: 32

Recreational visitation: 2,817,867 visitors per year

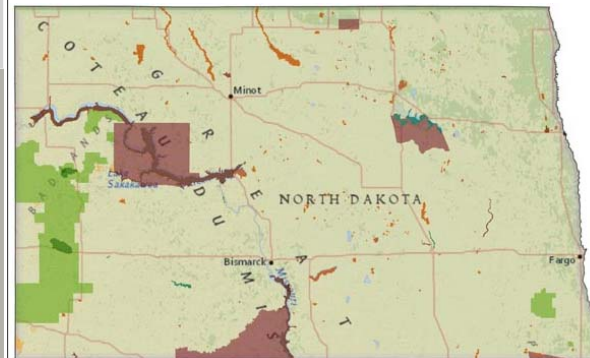

### Highlighted Project: *Brecker Crossing*

**Constructed:** FY 2015

### Success Story:

This project is located at 142nd Ave SE in Sargent County, ND. The existing crossing was previously undersized and approaches were washed out leaving the road closed due to the Wild Rice River flooding of 2010 that left 42nd Ave SE impassable. The crossing is very important for Tewaukon NWR visitors to access hunting and wildlife observation sites, but also provides critical health and safety access for refuge, law enforcement and fire personnel. The County was prepared to abandon the crossing due to more pressing flood project needs and limited funding. Without FLAP funding it was anticipated that this critical visitor and emergency access point would be inaccessible or would require very lengthy detours.

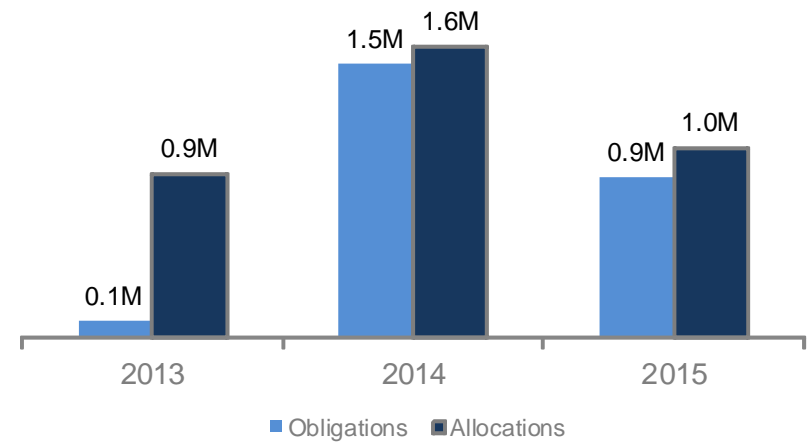

The project replaced the crossing with a double box culvert to accommodate higher flows on the Wild Rice River, improving safety. The road was also raised and widened providing two-way vehicle operations providing a safe facility for visitors and residents to enjoy this NWR for years to come.
