## Federal Lands Access Program (FLAP)

Improving access to and within federal and tribal lands

# Texas

### MAP-21 Funding Authorized:

FY 2013: \$2,687,396

FY 2014: \$2,707,584

FY 2015: \$2,653,301

Federal land acreage for the five core FLMAs: 2.07%

Federal public road miles: 1,820.2

Number of Federal public bridges: 58

Recreational visitation: 38,447,812 visitors per year

### Highlighted Project: *FM 409 Rehab Widening*

### To Be Constructed: FY 2016

### Success Story:

FM 409 is a 7.9 mile highway that meanders through the Bois d'Arc Creek Unit of the Caddo National Grassland WMA in Fannin County, TX. Currently, the pavement structure has widespread distresses and poor ride quality. Several areas along FM 409 received a "poor" distress score classification in the FY 2012 Pavement Management information System survey.

This project consists of reconstructing and widening the pavement structure from 20 ft to 32 ft wide, including 5 ft shoulders to allow for bicycle lanes on each side of the road. This will be a beneficial addition as this roadway traverses Caddo National Grassland areas as well as the Coffee Mill Lake and Lake Davy Crockett areas.

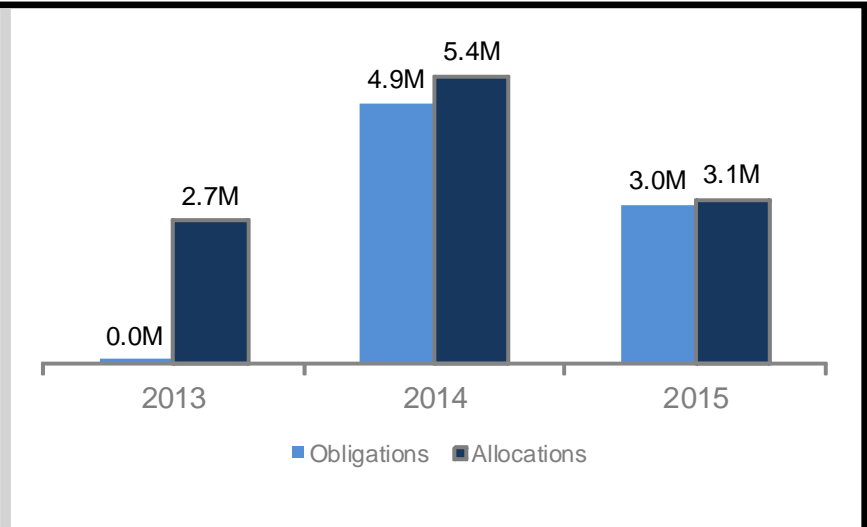

Partnership between TXDOT and CFLHD allowed for this addition in scope and for the widening of the roadway for alternative transportation use.

FM 409 Rehab Widening Project, Pre-Construction

***FLAP Project Selection Process***

Call for Projects	Number of Applications Received	Total Access Program Funds Requested
May 15, 2013 - July 15, 2013	9	\$14,935,704
April 6, 2015 - July 3, 2015	6	\$12,493,650
