

New York

SUSPECTED SERIOUS INJURY CONVERSION

INJURY CODE	CONVERSION	DEFINITIONS / INSTRUCTIONS / NOTES	SOURCE	LOCATION
Suspected Serious Injury	???? - Present	NOTE - These codes are not on the PAR. NY translates their multiple codes into KABCO when they produce their analysis files. They've been doing this since 2003 or earlier to our knowledge. The NASS sampling manual has a more complex translation because sampling is done straight from the PAR, not the state analysis files.	NY Statistical Summaries 2014	
A	A	A – Injuries include severe lacerations, broken or distorted limbs, skull fractures, crushed chest, internal injuries, unconscious when taken from the crash scene, and unable to leave crash scene without assistance	Injury Severity Key	definitions found on http://dmv.ny.gov/about-dmv/statistical-summaries
