2017-0079	CLOSE	1/3/2017	Mednick	Western Connecticut Council of Governments and Lower Connecticut River Valley Council of Governments	You disagree with the Agency's refusal to disclose any of the material requested in FOIA Control No. 2016-0318 on the basis of <b>Exemption 5</b> . Therefore, you make a timely appeal in response to the Agency's denial of the FOIA request. Because your clients do not agree that the requested materials are exempt from disclosure, they ask for a reversal of the denial of their FOIA request and waive all associated fees. Further, they request that if any portions of the requested documents are withheld, the Agency should describe the withheld material in detail and specify the statutory basis for the denial as well as your reasons for believing that alleged statutory justification applies in this instance. Additionally, they ask that those portions of the documents which may indeed be properly exempted from disclosure by Exemption 5, should be released pursuant to the Chief's powers of discretionary release.
