2019-0321-LA	CLOSE	8/19/2019	Donaher	Merchant McIntyre Associates, LLC	Copies of the following records: PROJECT NAME: Interstate 12 Widening & Rehabilitation Project APPLICANT: St. Tammany Parish Government BUILD GRANT AWARD: \$25,000,000 TOTAL PROJECT COST: \$36,000,000 PROJECT LOCATION: St. Tammany Parish, Louisiana PROJECT LOCATION: St. Tammany Parish, Louisiana PROJECT DESCRIPTION: This project proposes to widen and rehabilitate approximately 3.8 miles of Interstate 12. Specifically, it will add new travel lanes and auxiliary lanes at various bottleneck sites, widen the Tchfuncte River Bridge to three travel lanes and one auxiliary lane in each direction, and construct a sound barrier. PROJECT HIGHLIGHTS AND BENEFITS: The project will improve regional economic competitiveness because Interstate 12 is a major east-west interstate for freight movement throughout Louisiana, from the Gulf of Mexico and the Port of New Orleans. It also serves as a local commuter route and is a port of a regional evacuation network. The project will assist in the reduction of delays in this congested, high volume traffic area. The reduction in travel time will increase the efficiency of freight movement, as well as for workers during peak hours. The addition of auxiliary lanes and wider shoulders will also contribute to a safer experience for merging traffic.

					<p>\$30,343,600 PROJECT DESCRIPTION: The project will replace the existing interchange at Interstate 70 and Turner Diagonal with a more efficient diverging diamond interchange. PROJECT HIGHLIGHTS AND BENEFITS: Through the interchange redesign, more than three miles of ramp and two bridges will no longer be needed, resulting in state of good repair benefits. Diverging diamond interchanges are an innovative alternative to traditional interchange designs and improve safety and operations by reducing conflict points. The project will also use a concrete safety barrier to protect non-motorized traffic, which will be traveling on a new, dedicated path separate from the roadway. The project is a partner ship between the Unified Government of Wyandotte County and Kansas City Kansas, the Kansas Department of Commerce, the Kansas Turnpike Authority, Wyandotte County Economic Development Council, North Point Development, Kansas City Kansas Community College, and the Mid-America Regional Council.</p>
2019-0319	OPEN	8/19/2019	Eimers		<p>Requesting documents/correspondences/communications/emails/documentati on related to a statement of fact contained in FHWA CC-120:</p> <p>"The crash test matrix was developed in consultation with the FHWA's Office of Safety Design".</p> <p>I would like these records which show "consultation" with FHWA involving the Lindsay X-LITE whether they originated from Armor Flex International, Safe Technologies, or Lindsay with FHWA's Office of Safety between 1/1/2009 and 6/1/2012. This likely involves emails from retired FHWA officials. I would like those emails/communications. In</p>

2019-0186-NC	CLOSE	4/18/2019	Arruda	McAngus Goudelock & Courie	copy of the complete accident investigation for an accident involving one driver, (b) (6). The accident occurred on May 17, 2017 involving a 2008 Honda Accord, VIN #(b) (6), traveling east on NC-130. Per the accident report: The vehicle was traveling east on NC130, traveled off the roadway to the right striking the ditch, continued east striking a tree, then overturned and came to final rest off of the roadway. The driver airbag of the subject vehicle allegedly forcibly exploded after being commanded to fire in a frontal collision, causing metal shards and shrapnel from the airbag cartridge to exit through the airbag, striking (b) (6). We are looking for all file materials, investigations, reports, etc. related to the accident. We would also like to obtain the contact information for the investigator

					<p>Model 4. Purchase Price 5. Purchase Date that has been purchased by the NE DOT between January 1, 2010 and November 1, 2018. To define brinemaking equipment for this purpose, it is any mobile or non-mobile equipment that is used to mix bulk rock salt and water together to make liquid salt brine for the purpose of deicing and/or anti-icing roadways, pedestrian walkways, parking lot/decks or any other public or private navigable surfaces for vehicles or pedestrians. Brinemaking equipment can also be considered any mobile or non-mobile equipment that has the capability of mixing liquid salt brine with any other liquid or solid additives to enhance the performance of salt brine and loading that mixture into a storage container, such as storage tanks and liquid application trucks equipped with tank and spray systems. Brinemaking equipment DOES NOT INCLUDE liquid application systems (sprayers, liquid application trucks) or long term storage components (tanks, etc). Some examples of current manufacturers of brinemaking equipment are Henderson, GVM, Pengwyn, VariTech, Cargill, Kois Brothers, Sprayer Specialties, etc.</p>
