Construction Activities & Upcoming Work

Road Surface Conditions

The roadway is paved and traffic has been moved onto the bridge. The old bridge across Pelican Creek is being removed and the causeway is being lowered.

Current and upcoming work

Current activities:
- Removal of old bridge over Pelican Creek.
- Pelican Creek diversion.
- Removal of causeway across Pelican Creek.
- Concrete finishing.
- Removal of silt fence.
- Boulder placement.
- Rip Rap work at east end of Pelican Creek Viaduct.

Storm Water Pollution Prevention Plan (SWPPP): The SWPPP is available for viewing at Oftedal’s project office.
