Construction Activities & Upcoming Work

Inland Crane, Inc. (ICI) continues drilling for the Permanent Ground Anchor's (PGA) on the upper row of Abutment 1 on the south side of the river. The formwork installation and bracing in preparation of concrete placement for the East Anchor Block's (EAB) on the north side of the river, has been completed.

ICI is intending to complete the concrete pour for the EAB's this coming week as well as continue drilling for the PGA's on the south side of the river.

The Salmon River Roadway will continue to be a single lane at the crane tower, concrete barrier is installed to protect the public and project site. The speed limit continues to be 15mph thru this area during the 2024 Construction Season.

Please Use Caution when traveling and be aware of oncoming traffic, during day, night, weekdays and weekends. Thank you for your cooperation and understanding.
