Construction Activities & Upcoming Work

This past week Inland Crane, Inc. (ICI) worked on grouting the EAB 2B anchors, completed the Abutment 1 slab concrete placement on the South side of river, and continued backfilling at the EAB's.

In the coming week ICI will continue placing concrete in Abutment 1 Anchor blocks as well as continue backfilling around the EAB's.

The Salmon River Roadway will continue to be a single lane thru the project site and at the crane tower. The speed limit continues to be 15 mph through this area during the 2024 Construction Season.

Be advised that the US Forest Service has extended the area closure's for the Stoddard Bridge construction project into 2025.

Please Use Caution when traveling and be aware of oncoming traffic, during day, night, weekdays, and weekends. Thank you for your cooperation and understanding.
