Project Partner:

NPS

Contractor:

M.A. DeAtley

Construction, Inc

Clarkston, WA

Notice to Proceed:

May 3rd, 2022

Fixed Completion Date:

October 15, 2024

Project Description

Utilizing Great American Outdoor Act Funding, the Lewis River Bridge project, located along the South Entrance Road, includes construction of a double span 357-foot long steel girder bridge, 3 mechanically stabilized earth walls, removal of the existing Lewis River Bridge, stone masonry, excavation, and paving.

Source: FHWA

Work Schedule

Expect work 6:00 a.m. to 12:00 a.m., 6 days a week.

The contractor completed the bridge approach slab concrete. They are working on bridge sidewalk and curb concrete (pictured above). Stone masonry is being done on the North MSE wall. The contractor continues excavation and grading for both parking lots.

Upcoming work includes: bridge sidewalk concrete, stone masonry, guardwall concrete, curbs, guardwall stonework, roadway grading, and the river diversion for the old bridge removal.

Traffic Delays

Warning - There is a section of roadway that is a gravel surface. Anticipate up to 20 minute delays during construction activities. There is a single lane, two-way alternating temporary traffic control zone. Please observe and heed the temporary traffic signals.
