Construction Activities & Upcoming Work

This past week Inland Crane, Inc. (ICI) continued preparing EAB 2A and EAB 2B for placement of the Anchor block plates. They continue with test fit of the steel anchor plates to the EAB's for proper fit.

In the coming week's ICI will complete the EAB anchor plate placements and prepare for anchor testing. Work will continue on Abutment 1 Anchor Block reinforcing steel and subsequent concrete pours.

The Salmon River Roadway will continue to be a single lane thru the project site and at the crane tower. The speed limit continues to be 15 mph thru this area during the 2024 Construction Season.

Please Use Caution when traveling and be aware of oncoming traffic, during day, night, weekdays and weekends. Thank you for your cooperation and understanding.
