

# THE RAILWAY-HIGHWAY CROSSINGS PROGRAM

## FUNDING RAIL CROSSING SAFETY IMPROVEMENTS

Railway-highway crossings are where a roadway crosses a railroad track. These crossings create potential conflict points between road users and trains. The Railway-Highway Crossings Program (RHCP) helps improve safety by funding projects that eliminate hazards at these locations.

RHCP is funded through a set-aside from the Highway Safety Improvement Program. The Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law (BIL), set aside \$245 million annually from fiscal years 2022 to 2026 for the RHCP.<sup>1</sup> Specific projects at public rail crossings—including those with roadways, bike trails, and pedestrian paths—and projects at grade crossings to eliminate the hazards of blocked crossings are eligible for RHCP funds. **BIL raised the Federal share for these funds to 100 percent and no longer requires a 10 percent match.**<sup>2</sup>

For more information on eligibility and guidance, visit <https://safety.fhwa.dot.gov/hsip/xings/#policy>.

## IN 2023

STATES OBLIGATED MORE THAN **\$347.5 MILLION** IN RHCP FUNDS FOR **869 PROJECTS** THAT IMPROVED SAFETY AT RAILWAY-HIGHWAY CROSSINGS<sup>3</sup>

RHCP FUNDED **60 PROJECTS** THAT IMPROVED CROSSING APPROACHES **\$29.19 MILLION**<sup>4</sup>

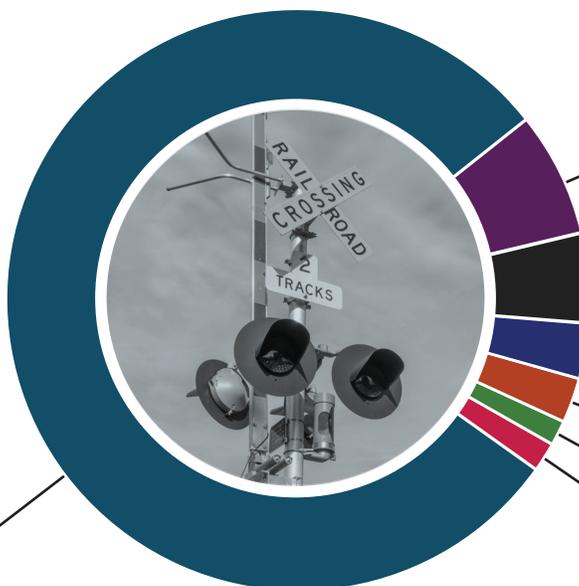

RHCP FUNDED **44 PROJECTS** THAT ELIMINATED GRADE CROSSINGS **\$34.02 MILLION**<sup>5</sup>

## WHAT TYPES OF PROJECTS DID RHCP FUND?

**697**

**ACTIVE GRADE CROSSING EQUIPMENT INSTALLATION OR UPGRADE PROJECTS**

Average Project Cost: \$410,097  
80.2% of total projects

**60** CROSSING APPROACH IMPROVEMENTS  
Average Project Cost: \$530,742  
6.9% of total projects

**44** GRADE CROSSING ELIMINATION  
Average Project Cost: \$829,803  
5.1% of total projects

**24** CROSSING WARNING SIGN AND PAVEMENT MARKING IMPROVEMENTS  
Average Project Cost: \$365,168  
2.8% of total projects

**20** ROADWAY GEOMETRY IMPROVEMENT PROJECTS  
Average Project Cost: \$432,147  
2.3% of total projects

**12** CROSSING INVENTORY PROJECTS  
Average Project Cost: \$177,275  
1.4% of total projects

**12** OTHER  
Average Project Cost: \$143,074  
1.4% of total projects

1 Pub. L. 117-58 and 23 CFR Part 924.

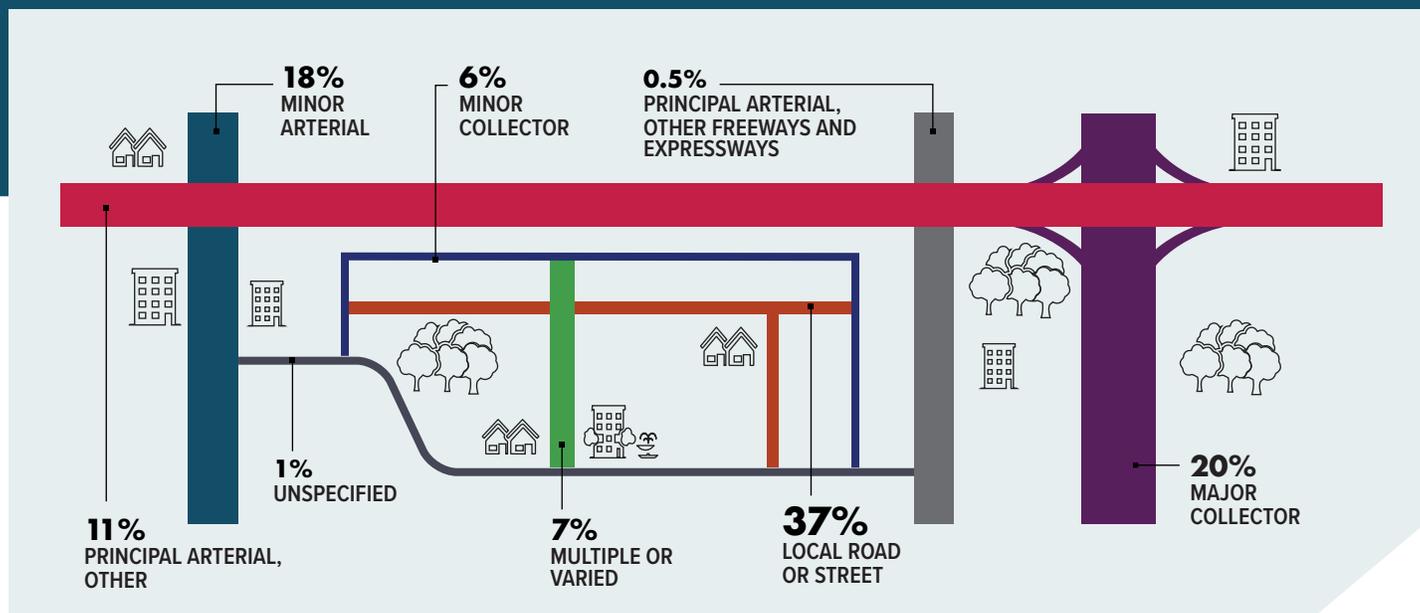

2 § 11108(b); 23 U.S.C. 130(f)(3)

3 States with Section 130 Funds reported as zeroes or negative values (i.e., deobligations) were not included in this calculation.

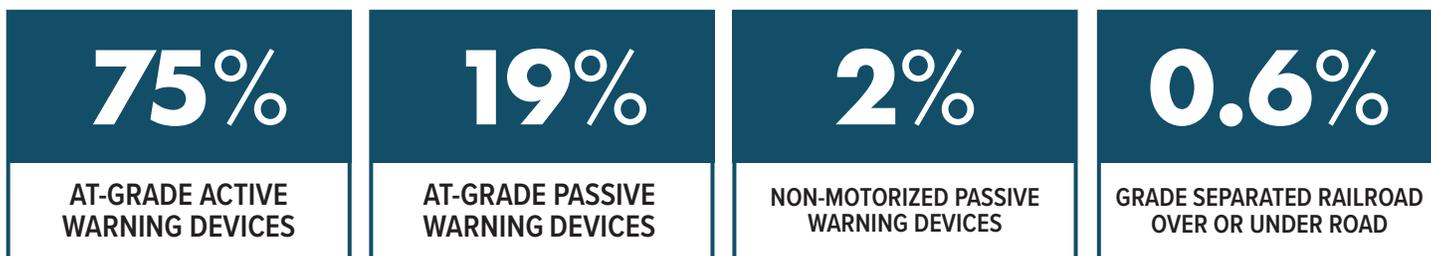

4 States with Section 130 Funds reported as zeroes or negative values (i.e., deobligations) were not included in this calculation.

5 States with Section 130 Funds reported as zeroes or negative values (i.e., deobligations) were not included in this calculation.

## WHAT KINDS OF ROADS WERE RHCP PROJECTS ON?

## WHAT TYPES OF CROSSING IMPROVEMENTS WERE MADE?

## CROSSING INVENTORY UPDATES

Railroads are required to submit information about the crossings—both at-grade and grade-separated—through which they operate to the Federal Railroad Administration.<sup>6</sup> This information gets recorded into a database of all crossings in the country called the U.S. DOT National Highway-Rail Crossing Inventory. The database keeps track of each crossing's location and classification information, railroad, highway and pathway traffic control device information, physical characteristics, and public highway information. State and local governments use information in the Crossing Inventory to plan and implement crossing safety improvements funded through the RHCP.

**In 2023, 11 States used RHCP funds to conduct crossing inventory updates:**

- Arizona
- Colorado
- Louisiana
- Maine
- Massachusetts
- Minnesota
- Montana
- Ohio
- Oklahoma
- South Dakota
- Texas
