June 17, 2022

Expected Completion Date:  
Fall 2025

Setting forms and reinforcing steel at Abutment 1

Source of photos: FHWA

### Construction Activities & Upcoming Work

Inland Crane, Inc. (ICI) is continuing with placing and tying reinforcing steel, and setting forms for the next concrete pour at Abutment 1, which includes the anchor block vaults, the saddle rocker bearing plates, wing walls and ties the anchor blocks together.

There will be no work on site from 6:00 pm Thursday July 03, 2025 through 6:00 am Monday, July 7, 2025, due to the Independence Day Holiday.

**Please Use Caution** when traveling and be aware of oncoming traffic, during day, night, weekdays, and weekends. It continues to be a single traffic lane through the construction site at the Crane Tower. Concrete barriers has been installed to protect the traveling public and the project site. The speed limit continues to be 15mph thru this area during the 2025 Construction Season. Thank you for your cooperation and understanding.
