of Transportation

**Federal Highway
Administration**

Seven Mile Culvert Installation Begins on CMR Refuge

Construction Activities:

June 23, 2023

Construction activities have been limited over the past 3 weeks due to frequent rain showers limiting access to the project sites. Route 101 has sustained some damage due to the high flows, but continues to be passable. This week the contractors (Battle Ridge Builders, LLC and Bishop, Inc.) began the installation of the culvert at Seven Mile Creek and installed the one remaining culvert along Route 101.

Work Schedule:

Monday—Thursday 7:00—5:00

Delays and Closures:

Delays: Continued minor delays of up to 20 minutes due to culvert and road work along Route 101. Please have patience during construction.

ROAD CLOSURES: Route 201 at Seven Mile Creek and Nichols Coulee will be closed between June 19 and June 30, 2023, weather dependent.
