U.S. Department  
of Transportation

**Federal Highway  
Administration**

## **Construction Activities & Upcoming Work**

Drennon Construction continues operations along Snug Harbor Road with the installation of the underdrain systems in the slope. Be mindful of intermittent truck traffic along the project corridor to bring material to the project site as the underdrain is being installed.

## **Traffic Delays**

Drennon is scheduled to work Monday through Sunday, between the hours of 8:00am to 8:00pm. Flagging operations will be required, expect delays and one-lane traffic control.

Crew works to install  
the underdrain systems  
on the slope.

As the underdrains are  
being installed, the slope  
below is being cut to grade.
