Administration**

Paving Operation

Construction Activities & Upcoming Work

Seabee Construction has completed five weeks of work on the project. The crack filling, patching, and paving are complete except for some minor repairs that will be made this coming Monday. The permanent striping should also be completed by Tuesday, with all major activities being completed.

Traffic delays will continue till the completion of the project in July. Continuing the week ahead there will be short delays from 7:00 am till 4:30 pm Monday through Thursday. Delays will be limited to 20 minutes, so please be patient and follow the pilot car.

Please be very cautious, reduce your speed, and obey the flaggers when traveling through the work zone, as it will be very narrow and congested.

Have a wonderful Independence Day!!!

Thank You.

Western Federal Lands Highway Division
