Administration**

Unrolling Attenuator Mesh

Construction Activities & Upcoming Work

The Ketchum-Challis Highway Project is moving along rapidly. More than half of the eight attenuator systems have been completed and Rock Supremacy is currently working on replacing damaged concrete bases that support attenuator posts. Cleaning of the roadside ditches continues behind the attenuator repair work.

Traffic delays and lane restriction have begun and will continue till completion of the project this summer. Continuing this week work will be from 7:00 am to 7:00 pm Monday through Thursday and 7:00 am to 6:00 pm Friday. Rock Supremacy has opted to not use road closures this season, **but expect minor delays of up to 15 minutes during daylight hours Monday through Friday.** Delays will be limited to no more than 5 minutes during non-working hours and weekends with Temporary Traffic Signals controlling traffic.

Please be very cautious, reduce your speed, and obey the flaggers and signals when traveling through the work zone, as it will be very narrow. Thank You.
