

Repave Denali Park Road MP 0 to 3.4

Construction Project News Letter

June 7, 2019

The contractor installed a couple of culverts and began their subexcavation operations just inside the park entrance last night. Sections of the roadway will be unpaved for a short period of time as they continue along the roadway. The contractor will make every effort to grade the unpaved areas so that the transitions into and out of these areas will be as gradual and smooth as possible, but everyone is urged to take extra care as they pass thru these areas. The next area to be excavated will be just west of the post office road beginning next week.

We remind everyone to use care and caution while traveling through the work zone, expect short delays, and watch out for equipment and workers.

Beginning Subexcavation work near the park entrance parking lot.

Project information

Contractors:

Pruhs Construction, Co., LLC.
Anchorage, AK

Begin Construction:

April 22, 2019

Planned Completion Date:

September 7, 2019
