U.S. Department of Transportation  
**Federal Highway Administration**

The FHWA Office of Tribal Transportation is pleased to announce the addition of **Financial Administrative Technical Assistance**. The additional support includes financial tools, training and technical assistance to help our Tribal Partners implement and deliver their transportation programs.

### What Services Are Available?

- Financial Technical Advice and Strategy
- Financial Policy & Regulation Implementation
- Financial Risk Assessment
- Single Audit Preparation & Corrective Action Strategy
- Accounts Payables
- Accounting / Financial System Evaluation
- Implementation of Financial Best Practices
- Financial Standard Operating Procedures

### What Type of Activities?

Technical assistance involves collaborative efforts and working in partnership to assess your individual needs and customizing solutions. Activities may include reviewing a standard operating procedure, sharing best practices, or finding a unique resource to address a particular challenge. We are in the initial stages of developing a variety of targeted training and technical support products, and we greatly value and welcome your input in order to properly assess your training needs.

### Who Do I Contact for Technical Assistance?

For Financial Administrative technical assistance, you can always contact your respective FHWA Tribal Coordinator or the FHWA Tribal Transportation Financial Specialist.
