PROJECT INFORMATION

STIP Amount: \$280,000

Project Name:	BIA 41 - North Reservation Line to 2.4 Miles South of BIA 2 - Reconstruction and Spot Leveling
Location:	BIA 41 from north reservation line to 2.4 miles south of BIA 2 and spot 10 miles south of BIA 2
Type of Work:	Reconstruction

A063440011

Route Number:	41-50, 60 & 70	Project Number:	10616111
Length:	4.8 Miles	County:	Oglala Lakota County
State:	SD	Construction Year:	2018-2019

Comments: Reconstruction of 4.8 miles (2.4 miles north of BIA 2 intersection to 2.4 miles south of BIA 2 intersection) and spot leveling from north reservation line to 2.4 miles north of BIA 2 intersection and one location 10 miles south of BIA 2 intersection. Reconstruction and spot 10 miles south of BIA 2 intersection have severe heaving/settling, causing unsafe driving conditions. The spot leveling from north reservation line to 2.4 miles north of BIA 2 will maintain safe driving conditions. Construction was extended into FY2019 due to weather and wet subgrade. Project completed and closed out FY2020 December 2019.

Length:	1 Miles	County:	Oglala Lakota County
State:	SD	Construction Year:	2022 or TBD

Comments: Bridge has a sufficiency rating of 54. Design of bridge replacement is underway. TTP Bridge construction funds will be requested soon due to the existing bridge deck not being suitable for traffic. This is a school bus route and bridge needs to be replaced soon. Bridge construction will take place after TTP bridge funding is awarded.
The bridge reconstruction requires building the new bridge adjacent to the old bridge to maintain traffic. The project will require some realignment of sections 10 and 30 and grade raise of section 30 to hydraulically work with the new bridge design.

Comments: Funds to replace culvert have been requested from BIA. Funds have not been received or awarded. Preliminary culvert sizing and cost estimate has been completed. The existing cmp culvert is failing, too short creating drop offs adjacent to the road, and severe erosion downstream. The new culvert will be concrete, longer so end sections will be outside the clear zone, end sections, and gabions or riprap. Eroded areas next to road will be filled in and seeded or have erosion controls added.

Comments: **Reconstruction of BIA 26 including a box culvert which would qualify as bridge inventory. This is a heavily traveled road with very little drainage structures and ditches. Stimulus funds were requested for reconstruction and if received would be reconstructed sooner than 2024. Preliminary engineering planned for 2021. The route has been submitted to BIADOT for an inventory update. 0.2 miles on the south end (section 10) was reconstructed in 2018 by Oglala Lakota College. The gravel section proposed for reconstruction in this project is now section 20.**

We can supplement the balance in hopes of an additional amount that we lack with our TTP funds but it will be taking from our large multiyear construction project, in hopes of the ability to apply for additional bridge funding.

Comments: Updating the projects needs and safety issues, planning safety trainings that the employees and public will benefit, keeping the tribal council and the tribal transportation committee updated about the safety issues. I have this identified separate from the road inventory and LRTP updates due the settle aside of 2% of the annual allocation for planning, which is tracked separately from the road inventory & LRTP are under PMO as a contractual project.
