**Comments:** This is the last of 3 bridges to be replaced along BIA Route 0166. The bridge spans the West Fork of Revais Creek. The all wooden existing structure is located in a sharp curve and log trucks often damage the edges of the bridge. TTP Shares will be used for PE, construction, and CE = \$345,000. Please note: The bridge is currently less than 20' long, so it is not currently considered an "official" bridge.

**Comments:** Replacement of the existing timber structure over the South Fork of Valley Creek. The CSKT will be applying for TTP Bridge Construction Funds. The bridge is currently posted at 9 tons and has a sufficiency rating of 20.6. If TTP Bridge Construction Funds are not awarded in a timely manner, CSKT will use regular TTP shares to construct the bridge.

Total construction cost for the bridge is \$150,000.00 (TTP Shares or TTPBF). The bridge is single lane and approximately 30 feet long. Foundation and roadway construction work are likely to be minimal because of favorable site conditions.

TTP Shares will be used for Planning, PE, and CE. If available TTPBF will be used for construction.
