Construction Activities

Work at Forest Service Road (FSR) 5140 MP 8.75 and MP 10.2 is complete. The contractor will have limited presence at the sites next week as they work on wrapping up the last of the work items. FSR 5140 is open to public traffic.

Work at FSR 4150 MP 0.3 and MP 2.2 is nearly complete. By the end of Friday, September 4th all roadway work is expected to be completed. It is anticipated that only limited finish work will be left for next week. However, the remaining finish work could still impact roadway traffic. Closures will follow the schedule shown below and to the right until the work is completed.

Work at FSR 4010-050 MP 0.78 and MP 2.3 will continue next week. The crew will be working primarily at the MP 2.3 site on the excavation for the new 96-inch pipe culvert. FSR 4010-050 will remain closed to public traffic until work at MP 0.78 and MP 2.3 is completed.

Work at FSR 4200/FSR 4200-400 MP 0.2 is currently planned to start at the end of September once work at FSR 4010-050 is completed.

Please, if the closed signs are up, stay out of the work area. Also, use caution on roads nearby these sites, as there will be increased traffic related to work activities.

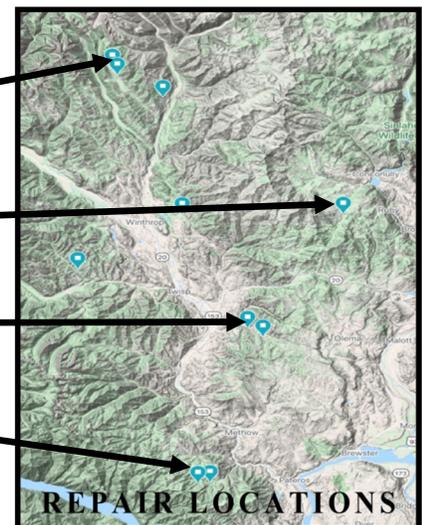

Road Impacts

- **Open** - FSR 5140 MP 8.75 & MP 10.2
- Work complete
- **Closed** - FSR 4200-400 MP 0.2
- Work starting at end September
