

RED ROCK LEGACY TRAIL – OPEN HOUSE

The Red Rock Legacy Trail project is a 20-mile trail system that will run roughly parallel to SR-159 in the Red Rock Canyon National Conservation Area. The entire trail is divided into five phases. We are looking for public input on the Phase 5 route, which will run between the Blue Diamond Wash crossing with SR-159 and the Hualapai Lot Trailhead.

Please join us to learn more about Phase 5, view the different alignments being considered, and provide your input. Project engineers and partner agency representatives will be available to share information, receive your comments, and answer questions.
